

MISSED DEADLINES FOR APPLIANCE STANDARDS

Prepared by the Appliance Standards Awareness Project (updated March 2021)

By law, the U.S. Department of Energy (DOE) must review each national appliance standard every six years and publish either a proposed rule to update the standard or a determination that no change is warranted (i.e., a “negative determination”). If DOE publishes a proposed update, a final rule is due two years later. In addition, Congress set unique review schedules for a few products. As of March 2021, DOE has missed legal deadlines for twenty-eight product standards.

Product	Required rulemaking step	Legal deadline
Water heaters	Proposed rule or neg. determination	March 2016
Pool heaters	Proposed rule or neg. determination	April 2016
Non-weatherized gas furnaces ¹	Final rule	March 2017
Clothes dryers	Proposed rule or neg. determination	April 2017
Room air conditioners	Proposed rule or neg. determination	April 2017
Cooking products	Final rule	June 2017
Oil furnaces and weatherized gas furnaces	Proposed rule or neg. determination	June 2017
Refrigerators and freezers	Proposed rule or neg. determination	Aug. 2017
Incandescent reflector lamps	Proposed rule or neg. determination	Dec. 2017
Dedicated outdoor air systems	Proposed rule or neg. determination	April 2018
Computer room A/Cs	Proposed rule or neg. determination	April 2018
VRF A/Cs and heat pumps	Proposed rule or neg. determination	April 2018
Evaporatively-cooled commercial ACs	Proposed rule or neg. determination	April 2018
Water-cooled commercial ACs	Proposed rule or neg. determination	April 2018
Commercial water heaters	Final rule	May 2018
Residential clothes washers	Proposed rule or neg. determination	May 2018
Metal halide lamp fixtures	Final rule	Jan. 2019
Distribution transformers	Proposed rule or neg. determination	April 2019
Microwave ovens	Proposed rule or neg. determination	May 2019
Direct heating equipment	Proposed rule or neg. determination	Oct. 2019
Dishwashers	Proposed rule or neg. determination	Nov. 2019
Walk-in coolers	Final rule	Jan. 2020
External power supplies	Proposed rule or neg. determination	Feb. 2020
Commercial refrigeration equipment	Final rule	March 2020
Electric motors	Proposed rule or neg. determination	May 2020
Furnace fans	Proposed rule or neg. determination	June 2020
Commercial clothes washers	Proposed rule or neg. determination	Dec. 2020
General service fluorescent lamps	Proposed rule or neg. determination	Jan. 2021

Savings at stake – Missed deadlines for updating appliance standards result in lost savings for consumers and businesses. ASAP estimates that updates to existing appliance standards could cut annual CO₂ emissions by 57 to 105 million metric tons by 2035 and save \$41 billion each year on utility bills by 2035.

Test procedures also overdue – DOE has also missed legal deadlines for updating 28 test procedures. Updated test procedures provide essential underpinnings for improved standards.

¹ DOE issued a proposed rule in March 2015, triggering the March 2017 final rule deadline. Also, DOE has not fulfilled its final rule obligation under 42 U.S.C. 6295(f)(4)(C).
